Benefits of being an Enterprise Angels Ecosystem Partner

1. Recognition of involvement in the Startup Ecosystem

You will be associated with and known to be a key supporter of one of the largest most professional Angel organisation in New Zealand.

2. Increase visibility for your company and services

Your corporate branding will be featured on the Enterprise Angel website, as well as in printed and electronic marketing materials. You will have a dedicated web page on the website to promote your services. Additionally, Enterprise Angels will support your social media efforts, helping to extend your reach to a broader audience of investors and entrepreneurs.

3. Introductions to prospective clients

You'll be exposed to entrepreneurs and companies who may require your professional services and to our membership of high net worth individuals.

4. Share your expertise with our Angel and Founder Community

As a partner member there are ample opportunities to educate and provide expertise to our member and founder community including hosting, sponsoring and/or speaking at Enterprise Angels event and through digital media..

5. Giving something back

Contribute to the New Zealand economy through the nurturing of the next big kiwi companies via capital and expertise. As a partner member there is an opportunity to mentor entrepreneurs - or even take a board seat as an Investor Director.

6. Keep up with trends

Keep abreast of new frontiers, rapidly evolving technologies, markets, and the world's most complex problems - and understand the potential opportunities.

7. Priority access to deal opportunities

Get access to early investment opportunities. Partner members can attend regular pitch nights to hear about new deals. After angel investors and partner members have committed their funds, the opportunities are then made available to wholesale investors, but only if further investment is still required.

8. Involvement without immersion

Many of our partner member representatives and investors are successful entrepreneurs who have empathy for the growing pains founders go through to realise their dreams. As a partner member you can enjoy the adrenalin rush of emerging company volatility, but without the burden of ultimate responsibility for the company.

9. Be part of a network/club

Early-stage investors, particularly angel investors, enjoy maintaining or building their personal networks with people that have similar interests. Our founder community also value the expertise and experience of one another and our extended member community.

10. Intellectual challenge

Reuse your experience and hard-won wisdom. As partner member, there's the opportunity to keep your mind sharp through dealing with the business issues faced by investee companies and nurturing the team through them.

NEXT STEPS.....

Organisations can support Enterprise Angels through two membership options: Strategic Partner and Corporate Partnership.. The difference is really one of scale. If you're keen to find out more, partner with us, or are ready to leap right in to investing. Visit: <https://www.enterpriseangels.co.nz/our-partners/>
